The Twelve Houses

Synopsis

In *The Twelve Houses*, acclaimed astrologer Howard Sasportas explores in detail the experiences and situations associated with each of the houses, describing not only their tangible associations but also the more subtle meanings of each of the different spheres of life. A pioneering volume and a favourite among students and professionals alike, this is recognized as the definitive work on the subject. This revised edition contains a new foreword by Liz Greene and tribute essays from leading astrologers Darby Costello, Melanie Reinhart, Erin Sullivan and Laura Boomer Trent.

Customer Reviews

Howard Sasportas, who died in 1992, was an American who spent his last 20 years in London. His reputation as one of the world's leading astrologers is unparalleled. With Liz Greene, he was joint founder and co-director of the Centre for Psychological Astrology in London. He spent many years as a practising astrologer, and his expertise and experience have been distilled into this volume.

I've been studying Astrology for years, I find it fascinating, understanding well the house system is one of the trickier aspects of Astrology, this is the best book that I have found on the subject that is still in print (that I know of) Buy it!

A+++ I'm about 1/2 way through with this book and it's already given me so much valuable insight to the system of houses... way beyond the cookbook style of relating to house structure. Sasportas

provides an invaluable, linear look at the 12 houses that's useful to the novice and the professional alike.

The best book I've read so far on astrology. Not only does Sasportas give a straightforward approach to the houses, planets and signs, he also gives very grounded and practical symbology that goes deep. I understand the system of astrology for the first time in my life because of this book.

This is an EXCELLENT guide! I would highly recommend it to anybody looking for more in-depth discussion of the houses. I learned so much from this book and I honestly think everybody can.

Great book & very informative!

The book describes the 12 astrological houses from a psychological point of view, and the meaning of the planets in each house. It is a very useful book to start learning astrology. Explanations are very clear and it explains not only the meaning of the houses, but the relationships among them, which gives a deeper understanding of the houses. I completely recommend this book.

Extremely valuable book for a student of astrology...be it a beginner or be it a pro...The simplified approach only goes to show the teaching prowess of the author.a masterpiece, classic,absolute must-have....The psychological perspective aids the student to look deeper "inwards" and as Carl Jung says..."what you repress...manifests itself...and you eventually land-up calling it fate".This book is a bible on how to just NOT let that blunder happen...truly liberating...truly enlightening...truly elevating !!!

Great Book. I knew I couldn't go wrong with Liz Greene being one of the authors. Have about two hundred books on astrology, and I have many of hers, she is truly one of the very best, great insight.
