Excellent compilation of BattleCorps E-books. Needs some spell/grammar check but otherwise very well put together. Hope to see more books like this and its mate: Vol. 1. Each story catches your attention and makes you want to keep reading to see what's going to happen to the main character or what kind of trouble he/she is going to stumble into. Highly recommend this book and others like it to any fan of Battletech/Mechwarrior genre. Can't wait until the next Anthology comes out.

This, sadly, is perhaps the worst-edited book that I've had the misfortune of reading. Multiple instances of unprintable characters and stray hard returns mar the first thirty pages of this collection.

Normally, I would accuse it of being unedited at all, but in one instance a full remark by an editor remained in the final text, right in the middle of a paragraph. I'm terribly disappointed that Catalyst published this material as-is.
