Customer Reviews

It says 240 topics, but there are only 120 of them. The topics weren't the kind i was thinking. And honestly, some of the example responses are just stupid... also some of the answers do not match the question.

Although there are a lot of different topics included, the answers are not as good as expected.

Only 120 topics instead of 240 topics.I found a serious problem: top doesn't match the sample answer

good and fast

This is truly an incredible book. It is anything but difficult to utilize and it separates into numerous basic classes. This book is stuffed with data from somebody who plainly knows the discourse making business. That, alone, makes this a decent reference apparatus.

The book title states "240 Speaking Topics" but it actually has 120 poorly written responses. Not recommended to any serious users.

This book offers succinct and accurate pointers on how to deliver a high scoring speaking sample on any English proficiency test. Each question is accompanied by a number of exercises that are aimed at honing a student's use of expressions and spoken grammatical accuracy. This dexterous aide was precisely what I was searching for! The writer went well beyond when it came down to clarifying the diverse perspectives with selecting a point and composing a discourse. The samples were to a great degree supportive and could give me a considerable measure of thoughts to incorporate into my addresses. The author has done a great job by sharing his thoughts in this kind of book and by giving lots of tips and techniques on how to learn different topics about speaking in an easy way. It's a great resource for practicing speaking, packed with expressions and answers.

Great to learn english
