# Kant: Groundwork Of The Metaphysics Of Morals (Cambridge Texts In The History Of Philosophy)

## Synopsis

Published in 1785, Immanuel Kant's *Groundwork of the Metaphysics of Morals* ranks alongside Plato's *Republic* and Aristotle's *Nicomachean Ethics* as one of the most profound and influential works in moral philosophy ever written. In Kant's own words, its aim is to identify and corroborate the supreme principle of morality, the categorical imperative. He argues that human beings are ends in themselves, never to be used by anyone merely as a means, and that universal and unconditional obligations must be understood as an expression of the human capacity for autonomy and self-governance. As such, they are laws of freedom. This volume contains Mary Gregor's acclaimed translation of the work, sympathetically revised by Jens Timmermann, and an accessible, updated introduction by Christine Korsgaard.

## Book Information

Series: Cambridge Texts in the History of Philosophy

## Customer Reviews

"...Groundwork of the Metaphysics of Morals is an original, profound, and beautifully written piece."  
--George L  fz  froi  , PhD, Institute of Interdisciplinary Studies in Humanities and Social Sciences, New York, Contemporary Readings in Law and Social Justice

Text: English (translation) Original Language: German --This text refers to an out of print or unavailable edition of this title.

Thank you

Korsgaard semi-clunkily explains Kant, and gets it right! Fantastic read. I read this in my Ethical Theory class at Stanford and learned a lot about Kantianism.

Brilliant translation that gets his point across

A bit difficult to read due to the vernacular of the era. Recommend it for those who truly want a challenge.

This version of the Groundwork of the Metaphysics of Morals provides a clear and concise introduction. You will find it useful to understand how Kant's moral philosophy fits within his general philosophy and to get acquainted with some of the debates around his work. Although this book is rather expensive for what it is, it is useful and worth buying if you are really interested in this topic.

The introduction is long and wonderful. It is a requirement before reading Kant's text. For me, this work of Kant reinforces my religious beliefs

The text was difficult to read, but there were translations/modifications to the text in the back of the book which made reading easier. I'd recommend it to anyone interested in moral philosophy and ethics.

very good for Kantian ethics and an intro ethics course
