When Our Worlds Collide

Synopsis

Kennedy Conrad is everything he needs. Graham Black has two rules in life. Play baseball, so he can get the hell out of Tennessee, and leave your shirt on when you drop your panties. He's a typical all-American pitcher with the world at his fingertips. His devilish good looks and charm help him crawl into the beds and hearts of the girls at his high school. With secrets no one knows, he has every intention of running away from his hometown the minute he graduates. Nothing can get in his way. Until poor choices collide him into Kennedy Conrad. Graham Black is everything she wants. Kennedy Conrad has her own set of rules. Dance with your whole heart, and make it through each day without being noticed. She's sweet and reserved, everything Graham's not. After one fated night, she can't stop him from noticing her anymore. She knows there's a chance of heartache by letting him in. When the unthinkable happens to Kennedy, Graham realizes what he's been fighting is what causes Kennedy to end up hurt. Can their love survive one more thing that is meant to pull them apart? When Our Worlds Collide is the 1st book in the Our World Series.

Customer Reviews

Where do I begin with this book? So many emotions come into play. For a debut author, Lindsey knocked this book out of the park. This story touches on real aspects that a lot of teenagers go through, especially when you feel like the pariah. Graham is a 17 year old that has everything he has ever thought he deserved, but love. He's the ultimate playboy. A different girl on his arm day in and day out, more money than he will ever need, a baseball scholarship to school of his dreams on the horizon, and a deep dark secret he's spent most of his life protecting. Kennedy was very relatable to me. A beautiful young woman who thinks she goes unnoticed, little does she know that Graham has his sights set on her from almost the beginning. Kennedy comes from a loving home with parents who love and understand her, even if they don't always agree with her decisions. Then meet her sassy best friend, Violet, who is the complete opposite of her. Violet's protective, yet encouraging. A shoulder to cry on and the first person to push her to doing something out of her comfort zone. Then there's Craig....oh how I wanted to love him. I'm sure you're wondering why I didn't but you'll just have to read this amazing novel to find out for yourself. This book takes you on a roller coaster ride. Experiencing high school is hard, especially when you feel like you don't fit in but it's even harder when the school playboy becomes your first love. For everything that was thrown in Kennedy and Graham's way they did everything they could to make it work. But love is hard. Check out this heart wrenching book about first loves and secrets. It will consume from the first page. This is an author not to be missed. I will definitely read anything she writes. Congrats Lindsey on your debut novel!

This book was good, but I had two main problems with it. 1. Homonyms. Know the difference between words! Insure vs. ensure and decent vs. descent. 2. The ending. Warning, there are spoilers ahead. Graham's reaction at the hospital was ambiguous and open-ended. I wasn't sure if he just broke up with Ken, if he turned himself in for the accident, or if Graham killed himself. Yes, I thought that Graham might have been suicidal at the end, but the book ended without clearing anything up. I just wanted a little more. Despite the problems, I enjoyed the story, especially the characters. Graham was a good portrayal of vulnerability. Violet was fun to read about. Amanda and Craig were both a little flat, but they were fun to hate. Even with the problems, I found this book to be enjoyable, and I would recommend it to anyone looking for a sweet romance

Hmm...So I am a little torn on this book. I feel the need to grade on a curve though, because it is the author's first novel. So, perhaps my words will speak a little louder than my star rating, I know that there is a second book coming and from the author's Facebook post, it was just sent off for editing. So on the off chance that you read your reviews Lindsey...PLEASE PLEASE USE A DIFFERENT

EDITOR!!The editing is not good. I agree with other reviewers that there are many mistakes in spelling, word placement, punctuation and tense. I found myself having to re-read some sentences and full paragraphs because of these errors. A few times, I wasn't sure who was talking, and it seemed like even though we were in the H's POV chapter, things were being said from the h's POV. It wasn't a deal breaker, but when you're getting into a story, to have to stop and re-read something really takes you away from it. These are things a decent, not even good, editor would have picked up on (one would hope).I don't understand why so many people gave a low rating based on the fact that this is a cliffhanger. It says it in the end of the blurb when purchasing the book, and states at the very end that this is book one of two, so....I don't get that. The ending does just end...it leaves you at a point where you're really wondering what could happen. And I think the author did a good job getting you invested enough to find out just what happens in the next book.I give the author credit for writing a YA/NA book about pretty normal teens. Don't get me wrong, I love Rachel Van Dyken and Tijan, but this is an engaging book about real teens with real teen issues. The entitled jock and the nerdy introverted girl who find their other half in each other. The h really tries to get the H to be a better person, the one she thinks he is underneath all the brash, crass, self entitled behavior he displays. And although it's a bit insta love once they start interacting with each other (which is two years after they initially meet) it is done very well in my opinion. The h is a bit of a push over, constantly seeing the best and forgiving the H's behavior, but I really think the underlying message is that sometimes, people need someone to believe in them, in the inherent good in them, even when they don't see or believe it themselves.Some reviewers are hard on the H but I think you forget he is a TEENAGE BOY!!! Teenagers can be self centered idiots and bullies don't always see the light until they are well into their 20's (or 30's in the case of some men i know!!!) so it isn't that much of a stretch to believe that the H keeps acting like a remorseless idiot after something awful happened (i won't spoil the incident, but he makes a confession to the h about something he did and the pretty awful outcome at some point in the past). I do think its possible to have that one person come along that makes you want to be a better person, and at least during his confession, he feels shame.I would only point out one more thing and that is the repetitiveness of the book. It's not overbearing, but it is noticeable, so I will admit to skimming sometimes when the internal musings of either character became a little redundant.I think this is actually a good book. I think there could be a bit more character development with the h, and she could be bit more stronger, but maybe we'll get that in the 2nd book. These are supposed to be teens. Teens screw up. They revert to behavior that is comfortable when faced with shame or stress...so this book kind of hits the nail on the head in depicting some fairly real teenage actions and reactions. I give Lindsey credit for

writing a full length book that has nothing to do with super wealthy. mob-tied teens with zero parental involvement who are obnoxious and disrespectful to every adult in an position of authority and for not writing about super wealthy step siblings sleeping with each other!! Seriously, can we get beyond that craze already. The book needs editing, that's for sure, but its a great first effort about fairly realistic fictional teens and a h that while a pushover at times, seems to have a forgiving heart. It in many ways is a breath of fresh air. I think anyone purchasing this book would enjoy it, even with its flaws and maybe even root for a happy ending!

I just finished the book and wow it kept me captivated I just could not put it down!!!! If I had one word to describe the book it would be shocked!!! Because let me warn you the ending is heartbreaking!!!! I could feel the passion and love radiating from the word and the way they were written!!!! This book has opened my eyes to what love is truly about!!!! It also proves to me that you can fall in love at any age!!! There are countless things I've learned but most of all is that never let your past or who you "used" to be or what "group" or "crowd" your in affect you because it in end it doesn't matter as long as you have people who love you like a best friend or parents or boyfriend/girlfriend, husband/wife..... You get it right? Yeah.... And I wanted to thank the author for such an amazing book I hope to be reading more of your books especially one about Graham and Kennedy's Story hopefully a happy ending!!!!
