Not sure what the other reviewers are talking about. I received a thick collection of material in great condition. As to content, you get avengers disassembled, and the first 2 stories from new avengers, as well as bonus material. Loved it! Great read and can't wait for volume 2

This right here is BMB at his best. His Avengers run was fun and made you care about the characters. If you're interested in reading Bendis' stuff prior to AN Marvel, this is it. He does a great job with this team. I loved it and I say that as a none BMB fan.

I purchased the Kindle version. The description says 504 pages, but it should have said 20 pages once Kindle version is selected. The price is double of the same issue on the Marvel app.

This book begins with explaining how T'Challa stood firm and refused to join a group of superheroes who thought it was best to guide the fate of the world and even use the name, "Illuminati" in a secretive fashion that put them above their peers, teammates, and of course fellow citizens. And this is the story of how he learned to stop worrying and love conspiracies via an interdimensional incursion into Wakanda. If you like compromised superheroes and tragic death, then this is an absolutely fun book. It didn't do much for me and I won't get the next issue.
