Earth Ponds A To Z: An Illustrated Encyclopedia

Synopsis

From the author of *Earth Ponds*, the definitive reference guide to constructed earth ponds. This A-Z guide provides pond owners and builders with an at-a-glance reference to answer any question. From acid rain to zooplankton, pond guru Tim Matson defines and explains more than two hundred terms associated with pond building and maintenance, both familiar and obscure. Here the reader will find descriptions and definitions of all significant pond elements, including structural features, construction materials, water conditions and treatments, aquacultural topics and crops, environmental concerns, government support and regulatory agencies, landscaping, and more. More than two hundred illustrated entries distill the latest information on ponds into a unique and definitive companion for pond owners and builders. 200+ black-and-white illustrations

Customer Reviews

Tim Matson, a writer and aquaculture consultant, has been advising people how to build and maintain ponds and wetlands for more than 25 years through *Earth Ponds*, his pond design and restoration consulting firm. His writing has appeared in *Yankee*, *Harrowsmith Country Life*, *Country Journal*, and *Vermont Life*. He lives in Thetford Center, Vermont.

Really...*"Earth Ponds A to Z an Illustrated encyclopedia"* is EXACTLY that, For example: "Beaver", with a picture and explanation of what a beaver is. "Backhoe" with a photo of a backhoe and an explanation of what one is. Where is the Cookie Monster and Ernie? It would be funny if I hadn't paid

\$8 for this POS. It goes in the Goodwill pile.

The book was fine. The shipping was terrible. USPS took 3 weeks to deliver after it was shipped.

I recently bought 11 acres in East Texas and this book is very instrumental in knowing where to build my pond on it. I own several books on the subject and this is one of the best.
