## Customer Reviews

A great Spanish book for beginner levels. This book is used in classes with grammatical approach.

We purchased the complete package from the publisher, and I bought this book so I could have a book to follow along with my student. What I didn't realize was that this was a different edition than the one that came with my package. That was surprising as the program hasn't been around that long. There were only a few changes in the newer version, so it was okay to use for the most part. I have no issues with the vendor of this product, just with the curriculum itself, which is why I can only give it 4 stars - 5 for the vendor, 3 for the curriculum. If you buy this used, be sure to ask for the copyright date before ordering.

Just OK!

Bought for a home school co-op class for my high school child. She's already learning more Spanish than I know!

I also have the e-edition on my iPad mini, all of the audio tracks are there with a touch. Couldn't be better.

I used this series for all 3 levels and loved it. Very straightforward structure and an emphasis on grammar that makes you very confident in speaking, reading, and writing from the first chapter onwards.
