The Making of a Leader is a powerful book to read and study. It helped me to understand the test and trials in my life. There are tests that a leader has to go through and there is character all leaders must have. This is all part of our preparation. Responding correctly to the situation or circumstances is what God is after. Will you respond God's way or the world's way? Your character can cause you to fulfill or forfeit your call to leadership. Tests lets me know if I am becoming more like Christ in my responses. Along with this book I used Frank Damazio "Timothy Leadership Program". Both books together are a great "marriage". I encourage all serious believers to read this book. It's not just for leaders but a good teaching on being built in the image of Christ and dying to self daily.

It is very useful for what I need it for...not sure if it's good or not because my Bishop of B.O.C.A. Cleveland, OH (boca1.org) can teach a class from whatever he uses.

This is a classic if you are seeking a thoroughly Biblicist approach to leadership. I use the term 'biblicist' for accuracy rather than as a disparaging remark. While the work may lack some the

practical insights of a Maxwell, or the theoretical observations of a Clinton, Frank has turned each page of the Bible to provide a systematic view of leadership and its development from the Bible. It is a classic in its field and kind. Highly recommended

I have this book in paperback and was thrilled it is now offered in e-book format. It's a great read and gives you food for thought about becoming a leader. For far too long, the plumbline of leadership has been on outward appearance, yet this book draws you back to the inclinations of the heart. Keep this book like a good friend; read it and ponder the message in its contents. This was the first book that really broke down the root meaning of lay, layity in a way that should make any believer cringe to know that there is no division of lay vs. clergy per se in the Bible, yet it is in our language and it is in the Church at large. This should not be!

This book gave me a greater understanding of what it means to be a leader. It gave a great depth of knowledge on several definitions of leadership. Wonderful information.

My ministry as a whole, as well as my personal life has been tremendously, positively and spiritually impacted by "The Making of A Leader" by Frank Damazio' ministry. His wealth of Biblical and spiritual insight into the growth and development of the minister should be read and absorbed by all.

I have read this book over and over for 20 years! It is a GREAT source of understanding and key to unlocking the potential of your church, ministry, or life period!

Not finished just yet but this book is amazing and honest! It gives clear history and powerful truths. Uncovering Truth about leadership starts with this book and of course the Bible!
