## Customer Reviews

Loved this book for ideas when planning a new landscape in a new location. Gives botanical name so you can shop for them in your local nursery. Wish it had photos as we because I'm a visual person; however, using my computer I could look plants up to help me picture them. Perhaps, written for the professional designer I still found it useful for designing my own interesting year round landscaping.

A-OK

This is not fantastic Hinkley but Hinkley nevertheless I.e. Very fine. This is a workday book and don't expect gorgeous. I'm still mad at him for selling Heronswood and this May color my review.

A classic. Sorry it's out of print

Daniel Hinkley is perhaps the best plantsman in Washington state and is very knowledgeable about the most beautiful species, varieties and cultivars that grow here. This book is an invaluable resource to help you have year-round color in your maritime Northwest garden. He includes chapters summarizing the best plants for foliage, bark, berries, & flowers, the best species and cultivars, and cultivation tips. There are seven pages of color photos, and ten pages of charts summarizing the written text. This is a small book packed with useful information.
