Customer Reviews

Yes required for a course!

It's a condescending insult. I would have got more putting my money in a shredder, but it was for school.

new book. code was intact and worked. delivery wasn't 2 days but timing wasn't too much later

Arrived in almost new condition. Exactly what the professor ordered. Thank you

It gives good advice for someone starting in the pre-med/nursing classes. This book has a more understandable casual tone to it which makes it easy to read. It was delivered promptly which was

another plus.

Thank you

Good book!

It was in great shape
