Excellent book for homeschool Social Studies. My grandson loves it and it's his favorite class! It is very colorful with many maps, pictures and other graphics. The time-lines they have in each chapter are also an excellent tool for a very visual 10 year old! I wish I could find this level of quality books for other states.

I think this will do the job for homeschooling my 4th grader next year. It looks very intriguing with nice pictures and the layout is fairly simple. I look forward to teaching my son with this book!

It is the official textbook, and very easy for kids to follow, for California curriculum requirements. A

worthwhile investment for students.

Nice condition. Good to have at home so my son doesn't have to carry it back and forth from school.

Arrived in good condition. Thanks.

Thank you

Thank you!

A perfect addition to my collection!
