## Customer Reviews

If I could climb into the book if I could. The photos are lovely and the designs and furnishings are very high end. The many wood designs are gorgeous. It is a bit more of an expensive and feng shui

design than the beach house look we have now. I will aspire to some of these designs later. I look at the pages when I am stressed and feel like I am planning a vacation. Bali here I come. I was worth every penny to me.

coffe table book type, i bought a few mainly for ideas and dreaming ;)

This book about the Balinese home contains a great deal of excellent ideas to convert your own place into a bali resort style home
