Reviews "Steven Kozak is an academic historian whose considerable abilities offer the reader a thoroughly researched and balanced account of the reef and its human associations. He assembles anecdote, history and passion into an enjoyable book. You can smell the sea breeze. His account of the original indigenous stewards of the reef and of the comparable attempts of more recent Australians is balanced and informative." (Joshua, M.) "A very interesting book. And highly 'readable.'" (Noah, J.) "I bought this book for my brother...he loves it....in Australia it was twice the price...a good deal....would recommend to anyone...easy to understand."
