Customer Reviews

Denise M. Stefano, CPA, CGMA, MBA, is an assistant professor of accounting and the accounting program chairperson with Mercy College. She has served as president and is a board member for a chapter of the New York State Society of Certified Public Accountants. Darrel Surett, CPA, taught accounting, business law, and income tax courses for 25 years as an adjunct professor at Union County College. He is a partner in the CPA firm of Barry Surett & Co.

I really liked this product. I was recommended this book and could not be happier. I used Becker but I was in need of different questions to supplement my studies. These questions were different and gave you a different style of thinking of the question.

I used this BEC course. The questions are easier than real exam questions. So expect more difficult questions in the exam. However this is a very good course to review. It covers all the areas and their answers help to revise the theory very efficiently. I highly recommend this for your last week's revision.

Great questions and easy to understand. I used this book to complement the Becker BEC book. The questions were formatted in a similar manner. I highly recommend buying this as additional source material. I plan on purchasing the other 3 books as well.

Exactly what I expected. Great review of learned college material.

Helps prepare you quite a bit for just about any multiple choice question on the BEC section of the exam.

It was well if you also uses Wiley.

Great for CPA review!

Helps me pass the exam.
