Country Guitar Heroes - 100 Country Licks For Guitar: Master 100 Country Guitar Licks In The Style Of The 20 Greatest Players (Play Country Guitar Licks)

Synopsis

Master Country Guitar Licks & the Language of the Greatest Country Players Play in the style of the greatest 20 Country Guitarists Master 5 genre-defining guitar licks for each player Discover how to combine and personalize vocabulary into a personal style Transpose licks and play in any key with our CAGED System guide Learn two complete Country Guitar solos to play country guitar licks in context Country Guitar Heroes: 100 Country Licks For Guitar Are you struggling to learn the language of solo country guitar? Do you want to master the essential language of the country guitar greats? Do you want to combine country guitar licks into meaningful, personalized solos? Do you want to be able to use your country guitar licks in any key and in any style? 100 country licks for guitar goes way beyond most normal "boring" lick books. You will learn authentic country guitar licks in the style of the 20 greatest country guitarists ever. What's more, you'll learn how to form their licks into your own personal language in any key and in any style. Here's What You Get: 100 country guitar licks closely mimicking the language of the 20 most important country guitar players Complete playing advice and breakdown of every lick, from fingering to musical application Understanding of how to apply these licks musically in any key An instant way to combine licks into musical phrases that are unique to your own musical voice An overview of The CAGED system so you can easily organize and contextualize your licks for instant access! "Never forget a lick again" Over 100 notated examples with tab and audio to download for free Bonus One: Two complete solos that teach you to combine and personalize country guitar licks into your own musical language Bonus Two: A complete guide to changing the context of any lick to work over different chords. Go Beyond Traditional Guitar Lick Books Most traditional guitar lick books actually fail the guitarists they set out to help. By simply listing licks, it is almost impossible for the student to apply them in any kind of context. They end up with a mental "list" of licks that they struggle to apply in a musical way. 100 Country Licks for Guitar is different and goes way beyond every other lick book available. It is not simply a cold list of licks, it's a complete guitar method for country guitar that teaches you how to learn and internalize the language of the country guitar masters into your everyday playing. The style and language of the 20 most genre-defining country guitar players are discussed and analyzed, and 5 defining, in the style of guitar licks are given for each player. You will learn licks in the style of: Albert Lee | Brad Paisley | Brent Mason | Buck Owens/Don Rich | Chet Atkins | Danny Gatton | Eldon Shamblin | Glen Campbell | Hank Garland | James Burton | Jerry Donahue | Jerry Reed | Jimmy Bryant | Johnny Hiland | Keith Urban | Redd Volkaert | Roy Nichols | Steve Wariner | Vince Gill | Whit Smith In addition to learning their essential country guitar language, you will also learn how to easily incorporate their country guitar licks into

your playing. Convert Licks: Learn how to quickly alter any lick to fit over Major, Minor or Dominant 7 chords. How to Learn: Also included is a detailed "How to Practice"™ section with detailed content on how to memorize, incorporate and transpose licks into any key.

Customer Reviews

Here it is.... Most Country guitar videos and lessons generally lack in content. The licks are kewl but its very hard to apply the concepts if you want to learn them and incorporate them into your own playing. Another issue is that the player might be really good but not the best teacher. In this book Levi is not only a good player but great teacher. He shows your different licks and different keys and chord progressions so you can apply licks in a real time situation. There are also backing tracks for the solos so you can play along and get the feel for the scales and licks. If you want to delve in country country guitar I highly recommend this book and his other books he has on . Great stuff!!!

Amazing book with an extensively useful, well explained licks in the style of so many different players. I just tried a whole bunch of them cover to cover and am very impressed with the attention to detail that Levi has put it in (but of course!) The best part about this book is the explanations about the licks, how to use and expand them as well as the brief but insightful biography of each important country guitar hero covered. Love the clearly notated licks, with the slides, bends, hammer-ons and pull-off clearly notated and easy to read (though not necessarily easy to play at tempo). The audio examples are very cool too with Levi playing the lick slowly and then at performance tempo. In short, this book is a great resource and I look forward to many hours of practice with this. If you're into country guitar but don't know how to start sounding more legit, get this book now.

This book is so much more than 100 licks in tablature. It goes into the theory and musicality of the licks, and takes a look at the players that inspired these licks. It's very well done. For less than the price of a single lesson, you're getting a treasure trove of information.

For the cultural value alone, this book earns its 5 stars. You can clearly tell this was written by someone with a passion for the instrument, the players AND the style. The licks are far from being the same old bland sounding licks you get everywhere, and you can still use them in any country style context as adaptation is covered too. Honestly, one of the best guitar tuition books I've read in a LONG time... and I've been playing for over 30 years and I'm a guitar educator myself, just new to country style guitar, and I wanted to find a cool, smart introduction to country style lead playing that goes well beyond the basics and this totally delivers. It's also a smart approach to analyse the context of the licks to enable the reader to create their own content later on if they're at that point in their development. Highly recommended.
