Another well written story. Just wiped chili off my kindle . Couldn't wait for lunch to get back to this story. These seem to be written from the heart. Please read this book. It is well worth it. Just shows how we all have to struggle at our jobs just to stay afloat. I have been passed over and burned so many times. And yes, I am the only college educated woman in the office. So I have that against me as well.

Our heroine who describes herself as a small chubby Black girl grows up to become a successful blogger and fashion adviser connects with a billionaire entrepreneur who had a similar experience in school yet without the added issue of ethnicity. Jennifer James our heroine gets invited to a retreat by our Hero Billionaire Flint Dryzek. After much prodding by her best friend, our heroine goes to the retreat, meets and connects with other successful business women but the one that matters most is her love connection with our Billionaire host Mr. Dryzek. Feeling out of her depth after she realizes she is falling for the Billionaire, she and another invitee decides to leave the seminar before it is over and that's when our heroine finds out what real connection she made while present at the retreat. Now I will not spoil it for you so you are just going to have to pick up your copy to find out what finally happens between our hero and heroine that makes this book such a very good read. There are some side stories in this book that are worth exploring as well.

To be honest actually, I'm excitedly submit this review... great storyline and it flows easily enough not to lose the reader...grant it, a couple of well place subtitles or *** or any type of marker between scenes will help in the future... ALL in all, I really did enjoy the book... so much so that I will be using MY KU account to read some of the changes that were made... Keep up the good work and I look forward to seeing more. I received a free ARC COPY of this book and I am voluntarily leaving a review.

Jennifer was living her life. She was a successful blogger, owned her own home, and had enough confidence to conquer the world. She was teased and used during her school days, but instead of letting it hurt her, she used it to motivate her to become who she was. When she got an invite to go and, possibly, help run a seminar with the very wealthy Flint Drysek, she couldn't turn it down. At first, Flint seems arrogant and manipulative, but she quickly learned that there was more to him to meet the eye. As the story progresses, we see the two of them begin a secret romance that confuses Jennifer. This is a good book and I highly recommend it!

I enjoyed the storyline in the book it was original. Jennifer is successful at doing what she loves being a blogger. Flint and Jennifer have chemistry but Jennifer is scared because of past issues. Jennifer gave up on love a while ago and is scared to try again. I enjoyed reading about this couple trying to get past issues to make the relationship work.

Nice Alpha romance from Ayo Campbell. Great character development! The characters have great chemistry, and there is plenty of drama and steaminess to keep you glued to the story! ***I voluntarily read and reviewed this as an ARC***

I enjoyed reading Jennifer and Flint story. Jennifer never could believe that someone like Flint would ever be interested in her. Love can always find a way if you let it. You will not regret reading this story.

I really like this book I loved how Jennifer went from a nobody in high school to a notable fashion blogger in her own right. The chemistry between Flint and Jennifer was amazing all in all what a nice read.
