Just what I needed to get started.

A great primer for newbies. Lots of important information even for the experienced rider. Will save you more than the price you pay for the book.

I haven't really had a chance to do anything but thumb through so far but I can see there is a lot of information here. I think this is going to be very useful, will update my review when I go through the book.

SUPER BASIC. Im no genius, but this is for dummies!

BOOKS FOR DUMMIES HAVE BEEN CLASSICAL OVER THE YEARS AND BYCYCLE FOR DUMMIES IS NO EXCEPTION...JUST WHAT I NEEDED TO USE AS A BICYCLE MTC. BIBLE. THANKS LOADS..

Great book!

Contains a lot of interest even to the fairly seasoned cyclist. Well worthwhile with a variety of useful tips on diverse topics.

I bought this for my boyfriend who found an abandoned bike. It's still in the basement. I think I might repurpose it, if I'm not too short to ride it.
