William Roberts Clark is associate professor of political science at the University of Michigan. He is the author of *Capitalism, Not Globalism*, and his articles have appeared in *American Political Science Review*, *Comparative Political Studies*, *Political Analysis*, and *European Union Politics*, among other journals. He has been teaching at a wide variety of public and private schools (William Paterson College, Rutgers University, Georgia Tech, Princeton, New York University, and the University of Michigan) for over a decade. Matt Golder was previously assistant professor of political science at Florida State University. He is the author of articles which have appeared in the *American Journal of Political Science*, *British Journal of Political Science*, *Comparative Political Studies*, *Electoral Studies*, and *Political Analysis* among other journals. He has taught classes on comparative politics, advanced industrialized democracies, quantitative methods, and European politics at the University of Iowa, Florida State University, and the University of Essex. Sona Nadenichek Golder was previously assistant professor of political science at Florida State University. She is the author of *The Logic of Pre-Electoral Coalition Formation*, and has published articles in the *British Journal of Political Science*, *Electoral Studies*, and *European Union Politics*. She teaches courses on European politics, democracies and dictatorships, comparative institutions,

game theory, and comparative politics at Florida State University and was a Mentor-in-Residence for the 2007 Empirical Implications of Theoretical Models Summer Program at UCLA .

Awfully boring textbook. Had to have it for class and never used it. UM.

Very good state of the book when received. Also its content is very interesting and useful

Speedy delivery, works great, no problems.

The readings helped you understand the material. What was most helpful was doing the exercises at the end of each chapter.

Good introduction, however readers would need to have basic mathematical understanding to go through some of the materials covered (:

It is so old and very used.

I really like this book although sometimes it becomes way too wordy and takes a while to get to the point.

Looks brand new, the only thing i did not like about this text is the the price!!!! It's paper back i thought it would be chaeaper jaja
