Tom Arny is an Emeritus professor in the Astronomy Department at the University of Massachusetts at Amherst. He was associated there with the Five College Astronomy Program (comprising faculty from U-Mass, Amhurst, Hampshire, Mt. Holyoke, and Smith Colleges). Dr. Arny received his undergraduate degree from Haverford College and his Ph.D. in astronomy from the University of Arizona. In addition to his interest in astronomy, he has a long-standing fascination with the natural world: weather (especially atmospheric optics such as rainbows), birds, wildflowers, and butterflies. Great book! Exactly what I was looking for!

Book in great shape!

NOT COOL - I needed this textbook for a college course. On the description, it says if you have

windows 8 you can use it on the kindle for pc app (which I have and use regularly). So I order the textbook & my PC says it is not supported in this format. I have to read this entire textbook ON MY PHONE - not what I was planning.

high quality and very value for this price . i think it is very good , very good seller . Good product and good service. fast shipping,

Yep.
