Brenda Ralph Lewis is a well-established author and journalist who has also written radio and television documentaries. Her books currently number over 100 and her articles many hundreds more.

One way to tell when a new solitaire book is written by someone who doesn't know the field is that FreeCell is not included. This book is clearly a rehash of existing books on the subject, but full of mistakes. Within the first ten pages I found two games (Beleaguered Castle and Eight Off) with incorrect rules. There are lots of other mistakes: Spider, Penguin, and Cruel among others. The quoted odds for numerous games are also wrong. There are many better books on the market, particularly *The Complete Book of Solitaire and Patience Games* by Morehead and Mott-Smith, the best book available despite being over 50 years old. *The Complete Book of Patience*
