# Encyclopedia Of Card Tricks (Dover Magic Books)

## Synopsis

In the first decades of the twentieth century magicians filled the magic journals with articles on card tricks, giving improvements on classic tricks and inventing new ones. If you could put together a collection of these magazines you would have almost a complete course on card tricks, by some of the world's greatest magicians. But where could you find these journals now that they are probably collector's items? And even if you could find them, how much would such a collection cost? Not very much. Because all the best of these tricks are available in this one monumental book, containing nearly every practical card trick produced, invented, and improved by magicians over a span of forty years and more. A truly staggering collection, this book explains how to perform over 600 professional card tricks: impromptu card tricks, spelling tricks, "you do as I do" tricks, diachylon (a paste for gluing cards together) tricks, calculation tricks; tricks using key cards, slick cards, double-backed cards, reversed cards, short cards; tricks based on a one-way pack, prearranged pack, Svengali pack, Mene-Tekel pack, stripper pack; special packs; miscellaneous tricks including Everywhere and Nowhere, The Case of the Four Kings, Card in the Orange, The Buddha Whispers, and Inseparable Aces; and a final chapter on tricks using the famous Nikola Card System. In addition, a chapter on technique explains the most important sleights • the overhand shuffle, riffle shuffle, false cut, palm, simple pass, double lift, glide, and force. Based on a volume compiled by Dr. Wilhelm Von Deussen and Glenn G. Gravatt, this collection was thoroughly revised by Jean Hugard and completely rewritten. It is easily the finest single compendium of classic card tricks, and the clear style makes the instructions easy to follow. An indispensable book for the professional or amateur magician, it is a magnificent source for anyone who wants just the right tricks to mystify his friends or delight his children.

## Customer Reviews

A classic that every card magician should have in their library.

More dense than the beginner's books out there, but highly detailed and comprehensive. An excellent overview of the arsenal of sleights every magician should master.

My grandson loved it.

Step-son loves to do card tricks and this book provided SO many different tricks for him to try. There aren't a lot of pictures so it's definitely for older children who can follow directions with step-by-step instructions

there is no images to show what it means, all the tricks are in word form so you have to think of how to get it done on your own and it is not that descriptive on how to do it... but if you are looking for a lot of tricks and can do them with verbal information only and no showing how to... then this is the book for you...that is all

This would be a bible of card tricks. Already have performed several. Even has gave me some ideas for more tricks. Explains how to make some gaff decks, which is good if you have them and want to maintain them.

great product.great transaction..

I purchased this for a 10 year old who loves magic but found we have to read the tricks ourselves then teach him to do them. This book is loaded with tricks!
