# The Patricia Cornwell CD Audio Treasury Low Price: Contains All That Remains And Cruel And Unusual (Kay Scarpetta Series)

## Synopsis

Two great Patricia Cornwell audio titles for the price of one. *All that Remains* and *Cruel and Unusual*. *All that Remains*: A serial killer is loose in Richmond, specializing in attractive young couples whose bodies are invariably found in the woods months later — minus their shoes and socks. Chief Medical Officer Dr. Kay Scarpetta finds herself tracking a killer who scrupulously eliminates every clue, rendering all her forensic skills useless. This time it's her courage and intuition on the line in a race against time. *Cruel and Unusual*: When convicted killer Ronnie Joe Waddell is executed in Virginia's electric chair, he becomes what should be a routine case for Chief Medical Examiner Kay Scarpetta. But after Waddell's execution, everyone connected to him begins to die — including a member of Scarpetta's staff. When crucial records disappear from her files, Scarpetta comes under fire for incompetence. Caught in a web of political intrigue, she must fight to free herself from murderous insinuations and threats to her own life. She soon finds herself retracing Waddell's bloody footprints, following a trail that might lead to long-hidden secrets deep within the state government. Either the truth will set her free — or unleash upon her a punishment both cruel and unusual.

She played the title role in Alice in Wonderland with her father, Richard Burton, on PBS.

good audio book.

This is my 4th Scarpetta novel and will be my last. In every story Scarpetta is falsely accused or framed. How lazy, formulaic and predictable. Cruel and Unusual particularly does not work as an audio book. It may work better when it is read, but the many gratuitous diversionary threads make listening to it as an audio book hopelessly confusing. Worst of all, the ending is flat and unsatisfying, with the murderer finally identified but the story just stopping cold with no apprehension of the villain or word about what happened to him. Boo!

I bought this series to take along on vacation. Did not get to do that on my last trip, so I have been enjoying the books while doing house chores. Great entertaining and very well written books. Excellent reading done.

I don't remember getting this. I do like her books.

Good stories. Makes the driving less painful!

Short for my taste but well written and narrated. Lacked the imagination I sometimes get from descriptive environments.

Cornwall is a writer of detail. Following characters and plot lines is a little tedious but I get why so many people like her writing. The narration is good and I think this set is worth buying. It will stay in my library.

Disappointing to receive condensed version
