The Knot Guide For The Mother Of The Bride

Synopsis

Leave it to The Knot, the most prestigious name in the bridal industry, to create a wise and heartwarming book for the second most important woman in the wedding. The Knot Guide for the Mother of the Bride explains the bridal planning process from start to finish, with special attention given to the responsibilities of the mother of the bride, such as engagement announcements and parties, interacting with the groom's family, and managing finances. Every aspect of the wedding tradition is covered from the mother's point of view, whether the etiquette of gift registries or how to organize a receiving line. Tips on the perfect form-flattering dress and camera-ready hair and make-up will help Mom create her perfect wedding look. Thoughtful suggestions give her ideas for supporting and encouraging her daughter, and for keeping perspective in high-pressure situations. Pretty illustrations and a lovely silvery jacket make this petite hardcover a special treasure. A great self-purchase for Moms or a cherished gift from the bride, The Knot Guide for the Mother of the Bride will help mothers and daughters enjoy the wedding and each other.

Book Information

Customer Reviews

Carley Roney is editor-in-chief and cofounder of The Knot, the premier name in bridal publishing. Since 1996, The Knot has provided advice to millions of couples a year online at www.theknot.com and in The Knot Wedding Gowns and Weddingpages magazines. Carley regularly dispenses wedding advice on national television shows such as the Today show, Oprah, and The View. Cindy Luu is a New York City based illustrator and graphic designer.

I bought this book for my Mom as a guide. After looking through it I returned it the next day. It was published in 2006 but you wouldn't know that by the information it gives. It tells the mother that she is the one dealing with the vendors. In my personal situation, mom is having nothing to do with vendors, my fiance and I will be the ones meeting and choosing. The book leaves the groom out a lot, leaving decisions up to mom and bride and to take groom into consideration. Towards the end of the book there is a day of schedule, telling the mother to "gently wake your daughter." Other information about what to wear was useful, but could be found online. I found this book really outdated and returned it right away.

Stale! Needs updating

I purchased this book for my mother shortly after my engagement. The book is well-written and easy to navigate and read. For what it is and the price, it is a decent purchase. What this book does right is etiquette. It has great advice to make sure that you stay on Emily Post's good side without becoming too overwhelmed with all the wedding morays. What this book does poorly is assume you're throwing a \$50,000 fete and that all your friends are dying to be your assistants. It's advice about the affair-itself can be a bit overblown. If you're having a very high-end function or are a person of means, please consult this book until the binding tears. But, if you, like me, are having an elegant event on a realistic budget with friends who have realistic schedules, then this book will be underused.

The book offers fairly commonplace guidelines. But worst of all I noticed it was published in 2006....old. Furthermore, it's way overpriced. I saw it elsewhere for \$8.00

Very helpful direction for MOB! It was my "go to reference" throughout the planning stage for my daughter's wedding. Have bought it 2 more times for good friends now going through the MOB stage.

It goes perfect along with the planner! It covers all of the issues that Mom's are curious about..

This is a helpful book as it helped me to know when and how to get the big day organized. Gave me tips for many issues I would overlook. Book could be updated, but in general I am very pleased to have purchased this book.

Bought this book for my mother when I got engaged. She's stuck in the olden-days, so needed to bring her up-to-date on the times now. Book was very useful to her... although some points weren't "modernized" and made it difficult to steer her away from. Overall I'd recommend the book and say it was a good help to her.
