Volume Three is Indexed for all three volumes. -- Author

Dolores Cannon is a past-life regressionist and hypnotherapist who specializes in the recovery and cataloging of "Lost Knowledge". Her roots in hypnosis go back to the 1960s. She has been specializing in past-life therapy since 1979. Dolores has become, perhaps, the world's most unlikely expert on the prophecies of Nostradamus. A retired Navy wife from Huntsville, AR, USA, Dolores was nearly fifty years old when she began experimenting with hypnosis and past-life regression. The results were, to say the least, quite spectacular! Working through several different subjects, Dolores was able to establish communication with the living Michel De Notredame, better known as the prophet, Nostradamus. His revelations and their impact on our own time are both fascinating and at times frightening. Dolores has written the three volume set "Conversations With Nostradamus", the series on the translation of Nostradamus' quatrains. This series contains the

translation of almost 1000 prophecies, all interpreted for the first time and have been in print since 1989. It is considered the most accurate interpretation of the prophecies ever printed. During the past eighteen years Dolores has been a UFO investigator, using her skills as a regressionist to help people that been involved in abduction cases. She has written several books on the UFO information volunteers have revealed while under hypnosis. Dolores is now teaching her unique technique of hypnosis all over the world. In addition to the three volumes of "Conversations With Nostradamus", Dolores has completed: "The Legend of Starcrash", "Keepers of the Garden", "Legacy from the Stars", "A Soul Remembers Hiroshima", "They Walked With Jesus", "Jesus and the Essenes" and "Between Death and Life". "The Custodians", discusses in detail information regarding distorted time, screen memories, reasons for abductions, implants and much, much more.... Her latest book, "The Convoluted Universe, Book One", goes further into complex metaphysics

This book is the final work of Dolores Cannon's trilogy on Nostradamus. It is a continuation of the interpretations of the quatrains with a few new twists which includes insights into his methods for healing others using various herbs and concoctions. Also, Nostradamus explains that there is hidden information, buried in the desert, somewhere in The Middle East that will help mankind. In addition, there is material concerning visitations by extra-terrestrials and when they will return. In my opinion, what completes this book and serves as a finishing touch is the last chapter-'And So It Begins'-in which Dolores continues her regression techniques concerning the Anti-Christ and what he might look like from an artist's perspective. What makes this topic complete is her re-assurance, supported by Nostradamus, that humanity has the ability to change the dire predictions foretold for the world. She caps this chapter off by giving hope that this particular scenario is only one of many possibilities that could take place. Again, we must be aware that "thoughts are things" and our mass consciousness can create our future in a most positive way. Mankind is in control of their own destiny, if they wish to use the power of positive thinking to produce positive results. The last few pages provided us with a positive message that we are in control of our own fate-and so it continues!

This series of books by Dolores Cannon are mind blowing to say the least. The concept is complex and extremely interesting. The information was obtained via the Akashic Records and through hypnosis. Wrap your mind around this! Dolores and her subject do a hypnosis session and the subject arrives at the Akashic Records. (for those of you who don't know what the akashic records

are, research it) From there, the subject is sent to the 15th century to Nostradamus home and they conduct conversations with him about his quatrains. It is mind blowing to say the least! So much to it. So think about this....the subject, in present day goes back in time to the 1500's to speak to Nostradamus about the future, which is our past and future and mostly Nostradamus future. The future is shown to the subject through a magic mirror, so he is being shown images and videos of the events. That's right, in the 1500's...videos. If you have enough intuitive awareness to grasp this, you will be enthralled.

This book is full of explanations of what Nostradamus really meant when he wrote the quatrains so many years ago. Other people have tried to translate the meanings, but Dolores Cannon's use of hypnotism brings things to light like never before. I believe humanity is ready to hear the words of Nostradamus, in a way that we can understand in the context of modern times. After reading the book, I feel more prepared to face the future in these perilous times. Conversations with Nostradamus: Volume 3 is a "must read" for anyone interested in the big picture of things.

This is Delores Cannon's second book in a trilogy involving the interpretation of Nostradamus' quatrains. The present, near, and far future are covered in this book, for the most part, with a dire outlook for humanity. There are sections in the book dealing with The Great Genius that lends hope for the future of mankind. I liked the section that dealt with The Tapestry Room which deals with all the souls in existence. In this room, one of the regressed participants, Phil, discovers Nostradamus' lifeline and easily makes a connection with the great seer. I found Phil very credible with his ability to connect with Nostradamus, especially since Phil is also a student of astrology and could interpret the alignments properly. Again, I would put emphasis on the positive predictions concerning the quatrains rather than a series of possible dire events that may or may not occur. Consciousness of humanity is everything and these events can be avoided. It was stated in the book that Nostradamus was trying to warn us in the present, so we can change the timeline and avoid possible catastrophe. He also talks about a polar shift occurring sometime in the near future in which the map of the world will change. It is my belief that thoughts are very real and can affect us individually and collectively. Therefore, keep this in mind when you read this book. This work will keep you on the edge of your seat which will make it difficult to put the book down. To Delores credit, she put a lot of hard work into the creation of this book. I found it interesting and spellbinding, but know that this is one of many possible scenarios that could develop.

At some points I was not 100% sold but there are some things that make me wonder. Delores Cannon is an innovative thinker and writer. Her style of writing is very easy to read and flows smoothly, not jumping all over the place as some books on these subjects tend to do. I lived in Northeast Arkansas and know that she lived in the area and was very well thought of among her peers and the local authorities. While some of her ideas are even beyond what I personally believe to be true, I still find her an interesting author and until I find a major discrepancy with her thoughts, I am willing to give her the benefit of the doubt.

Picks up after volume 2. At times redundant comments made by Dolores Cannon as she admits her scholastic shortfalls over and over. These might be best left out by a sharp editing. It made the book long winded in places where better questions could have been asked. Sketches of Anti Christ worth the struggle as is the evil Imam uncle.
