Condensed Chaos: An Introduction To Chaos Magic

Synopsis

Condensed Chaos provides a practical introduction to Chaos Magic, one of the fastest growing areas of Western Occultism. Through it you can change your circumstances, live according to a developing sense of personal responsibility, effect change around you, and stop living as a helpless cog in some clockwork universe. All acts of personal/collective liberation are magical acts. Magic leads us into exhilaration and ecstasy; into insight and understanding; into changing ourselves and the world in which we participate. Through magic we may come to explore the possibilities of freedom.

An excellent introduction to chaos magick, and magick in general. --Psyche, spiralnature.com

Phil Hine is a former editor of the internationally acclaimed magazine Chaos International. He has facilitated workshops and seminars on modern magical practice in America and Europe and contributes regularly to a wide range of occult journals. He is also the author of The Pseudonomicon and Prime Chaos.

Excellent all around.

Glad I read this...always open to eclectic ways of looking at life, consciousness, existence, meaning and seeing what I can incorporate into my own vibe, man.

This book really opened me up to the theories of chaos magic and it's very free and exploratory views. I think this is the magic of the future.

fear of success? this clears it all up for me. you need this book. and maybe whatever else he suggests.

I wish I had this book when I first started out in magic and paganism. It explains so much with an open mind!

This is a good product at a better price than I am able to find it at any local retailer, deliver directly to my door and very quickly

This book is a very good read!

To quote George Bernard Shaw: "Imagination is the beginning of creation. You imagine what you desire, you will what you imagine and at last you create what you will" There's not much more to it but chaos has the techniques to help you burrow into the subconscious. Good starting point for chaos magick but the main thing is to get cracking with the nuts and bolts of it as soon as you can.
