Love these Maisy books!

good book :)

My granddaughter just love these books. If she's happy, I'm happy!!

My son loves Maisy's books. There is always something new in every page for him to find.

cute book, my 9 month old loves it

Maisy is off to Eddie's birthday party but she's going to fly her plane to get there. She also has a very special surprise in store for her friend and Maisy will need her airplane to deliver it. Toddlers love the books in this series because they are about half the size of a regular board book and they feature Maisy using various modes of transportation (train, tractor, etc.) Easy to handle with bright colors that "pop" and attract the child's attention the illustrations here are bound to please and bring a smile to the face of any preschooler who loves this cute, little white mouse! This book goes to my granddaughter because she loves Maisy! Book supplied by publisher.

Lovely simple story with bright vivid pictures. My son (18 months) loves these books and likes to point out characters in the pictures.

The story and illustrations are really cute. The story has Maisy flying and writing a birthday note in the sky to her friend. I plan to give this as a birthday gift along with a toy airplane, but it is a great book for any time of year.
