Devon Bandison has scored big with this entertaining and inspiring book that every leader and every father will want to read right away! Steve Chandler, author of Crazy Good: A Book of CHOICES
Fatherhood Is Leadership is a great parenting resource written by my friend, Devon Bandison. Devon's the real deal. He's been there and done that. Let him guide you through the process of creating the dynamic you desire with your children, whilst at the same time giving you a

swift kick up the ass. He'll remind you that you are the greatest role model for your children, that you are just what they need. Lead not just by showing up in the lives of your children but by showing up in the world as well. Buy it now. Invest in yourself and your children. You won't regret it! Stella Reid, author and star of the television show Nanny 911 --This text refers to the Hardcover edition.

Devon Bandison is one of the world's most sought-after success coaches. He works with Fortune 100 Companies, professional athletes and teams, CEOs, salespeople, small business owners, top business and life coaches and everyday fathers, among others. He is an international and TEDx speaker whose work has appeared in publications including The Wall Street Journal, Huffington Post, Inc. Magazine, and Success Magazine.

"The percentage of children living with only their father increased from 1 to 4 percent" - US Census Nov. 2016 This is an exciting time to read this book. After all, when we consider the stats around family dynamics this is the time for fathers to take heed and lead. This book is an amazing read. As a mother with two boys, I can apply all that Devon shares in his book with them and in my life. It's inspiring, practical and relatable. Devon shares his life lessons and how you can apply those teachings in your life to impact your family and organization. I am excited that this book is being released now to impact the lives of men and families it touches. This is the time to take time to live and lead an extraordinary life!!!!

If you desire to be a better father, leader and even a better friend and man, this book is for you. In this book, Devon shares so much of his experience and what he has learned throughout his journey as a social worker, father and leader in his family and community. He also gives concrete advice and exercises that you can do to reflect on your own experience and where you can improve as a father and leader. Most importantly, this is not some book written by a guru who pretends to have all the answers. Devon is incredibly humble, admits his mistakes and tells you what we can all learn from them. This book reinforces what I have learned recently, which is that leadership does not mean having all the answers and being perfect, leadership means knowing when to be honest, vulnerable and ask for help. Men who can do that, will build closer relationships and more trust with their children, friends and everyone around them. Devon sets a great example with the stories in this book and I greatly admire him for all of it and am glad we shared this book and his lessons with all of us. If you are a father who is open to reflecting on your own mistakes and mindset and who wants to improve to become the best father and leader you can possibly be, then I highly

recommend you check out this book. Andy Storch Husband, Father, Businessman Host of The Entrepreneur Hot Seat podcast

I'm not a father and this was a powerful read. The pages flew by. Devon has a way of normalizing and coaching through stories that are incredibly approachable. One part memoir, one part handbook, two parts authentic power. I can guarantee reading this with an open mind will leave you with the foundation necessary to take ownership of your situation and bring a better version of your self to the table immediately.

Seriously amazing read. Real talk from a real man. This book is perfect for a mom trying to figure out her son. Also a great gift for Dad. I found it really useful to gain self awareness and to really let go of life's stressors and to enjoy life and your children.

Just when you thought you knew it all, you get smacked in the face by Devon Bandison's book, *Fatherhood is Leadership*. As a father, speaker, trainer of athletes, and fellow author, time is extremely limited. Devon has a unique way of cross referencing the skills needed for Fatherhood and Leadership. He explains brilliantly how Fatherhood and Leadership are one and the same while allowing you to implement his strategies in a time efficient manner. I will most definitely use these strategies in my life and recommend all the fathers out there to do the same. Results not Excuses. Devon shows us all how to get RESULTS!

Devon Bandison masterfully weaves powerful trials, lessons, and gifts from his own journey as a father and leader with practical and immediately applicable exercises to help you become a truly present and connected parent. More than that though, he shares the essence of what real leadership looks like "both in the lives of your children and in your everyday life. You now hold in your hands everything you need to be the man you know you are capable of being.

I often meet dads that feel hopeless and helpless as they face challenges both at work, and at home. Devon Bandison's underlying theme throughout *Fatherhood is Leadership* is that overcoming each of these challenges starts and ends with ourselves. Bandison uses his own life story to share the tools that he has developed in himself to become the man and father he envisioned. His life experiences and proactive approach will benefit dads of all stripes.

I just ordered Devon Bandison new book Fatherhood is Leadership. I can't wait to receive it because it is coming from an extraordinary leader and coach. I had the pleasure to meet Devon when he came to my school and spoke to my students for my event. When he spoke there was not a sound in the room as the elementary children were so engaged in his story and what he had to say. The children came away learning so much from Devon and he was an outstanding speaker that brought a winning story to the NYC Montessori Charter School. He has an amazing message and I am sure his book will be amazing and will help a lot of fathers and coaches because he speaks from the heart. I truly recommend this book to everyone
