# Concepts Of Biology

## Synopsis

Concepts of Biology 3e recognizes the value of the traditional approach while still engaging students in the excitement of relevancy to themselves and the world around them. The text abounds with analogies and engaging illustrations as it proceeds from an examination of chemistry to the biosphere. A significant new feature of this edition is the integration of media asset into the chapter content. Virtually every section of the textbook is now linked to MP3 files 3D and 2D animations of biological processes and National Geographic and ScienCentral videos. In addition McGraw-Hill offers a full suite of adaptive learning tools including LearnSmart LearnSmart Labs LearnSmart Prep LearnSmart Achieve and SmartBook all designed to assess a student's existing knowledge base and adapt to particularly address deficiencies.

## Customer Reviews

Bought the ebook version of this textbook for my kindle app. Since my course is only four weeks long this seemed like the best option. This book is horrible in ebook version. It freezes up my app constantly. I cannot even turn the page without it freezing for at least several seconds. I have used other ebook textbooks for college and I read novels a lot and I have never had THIS much trouble

with an ebook. I am really wishing I had just spent the extra \$30 to have a used one shipped to me but it's too late now. Just beware.

Was bought for my class, and it was the correct edition (3rd) and everything. I've had no problems, it's the same version that all my classmates have, nothing's different. I would highly recommend renting the book instead of buying outright. If you buy it, you'll only be able to sell it back for maybe 1/4th of the price. Not much else to say for a textbook. :)

Great buy, saved me some \$\$\$

The pages in this book are perforated and if you buy the used version you are taking a gamble as some of the pages may be missing. It wasn't too big of an issue for me since the book only costed me \$15. Luckily my biology lab worked in groups so i just borrowed someones book for a couple chapters. Still a WAY better deal the you'll find at your local college rip-off (book) store.

Did the job alot cheaper than buying the book!

Great condition

Delivered on time! Excellent price and product!

Good book.
