I recommend this book to anyone who loves a good read. This book is a page-turner and it is sure to keep you occupied and entertained.

I couldn't put this book down. please tell me there will be a second part to this story. I want to know how this unfolds for Caleb and Sky.

5 stars I really liked how skylark was really realistic and stubborn and so was Caleb and how they were so cute together!

One of the best romantic books I have read in along time. I love how she falls for the quarterback...all cute!!!

This book drew me into their world, I felt their pain, I felt their passion, but most of all I felt like I couldn't sleep till I knew how it ended. Ever had an non obtainable crush. Someone way of your league. Well here's a perfect example of how nothing is out of reach. Rival or not love conquers all.

I liked this book because it was funny and sarcastic and just a feel good read. However, the end pissed me off because it's such a cliff hanger it's not even funny. It ended so abruptly I'm praying the author makes a sequel or there's going to be several angry readers on their hands! It's way too good of a story to just leave open like that!!!

I loved this book until the end. Seriously? The ending was so abrupt is basically smacked me in the face. You can't end a book like this without a sequel. UGH!!! I stayed up all day reading this and now I'm mad.

It promised a lot of love-hate moments and that in a YA story can come out as a really sweet and lovely story. I had a great time reading the story through Skylar's point of view. She's a teenager who has been transferred to another school thanks to her mother falling in love with a man and deciding to go live with him. This wouldn't be a problem, if Skylar's new school wouldn't be the rival of her old school. The story started great. I found myself reading all about Skylar's fears and why she was

complaining so much. The tension in the air was almost palpable and it goes to another level, when Caleb appears in the story giving another meaning to living with your enemy. Their relationship started out of hate, but you can see how it changes with time and how their pranks that started out as a mean to get the best of the other, turns out into something that they share. Their relationship was an important factor to make this story captivating. It was clear that there was a tension: first hate, then something else. And the reader is just on the edge of the chair, wanting to know if these two would see past their school's team. I only had a few troubles with the story nearly when it came to the end. There were scenes that made no sense to me as a reader. At least, my reader feelings were a little bit hurt. Some of the actions came mainly from Caleb and that I found myself with urges like wanting to punch Caleb in the face, wanting to scream at him to do something and again wanting to punch him for not trusting the right person. If you read the book, you'd know what I'm talking about. These lead me to find myself with the very end of the story and not wanting to believe it was the end (I tried a couple of times to see if the iPad had gone mad and maybe delete pages or something like that). Leading me in a glass case full of emotions, because my iPad did not hate me and didn't delete any pages. It was the simple end. My little reader heart couldn't take this ending knowing this would be just a standalone. So for me, it was kind of a disappointing ending. Despite this, Rival Love has a lot of rivalry that makes the reader have a great time while reading Skylar's story. She completely changes and matures and I think it's a good YA story that I recommend to those readers who like a romance story with a lot of team rivalry and pranks.
