Forbidden Gates: How Genetics, Robotics, Artificial Intelligence, Synthetic Biology, Nanotechnology, & Human Enhancement Herald The Dawn Of Techno-Dimensional Spiritual Warfare

Synopsis

While *Forbidden Gates* includes fresh insights for traditional, tried and true methods of overcoming darkness, it also unveils for the first time how breakthrough advances in science, technology, and philosophy including cybernetics, bio-engineering, nanotechnology, machine intelligence, synthetic biology, and transhumanism will combine to create mind-boggling game-changes to everything you have ever known about spiritual warfare. How so? In recent years, astonishing technological developments have pushed the frontiers of humanity toward far-reaching morphological transformation that promises in the very near future to redefine what it means to be human. An international, intellectual and fast-growing cultural movement known as transhumanism intends the use of genetics, robotics, artificial intelligence and nanotechnology (GRIN technologies) as tools that will radically redesign our minds, our memories, our physiology, our offspring, and even perhaps, as Joel Garreau in his bestselling book *Radical Evolution* claims, our very souls. The technological, cultural, and metaphysical shift now under way unapologetically forecasts a future dominated by this new species of unrecognizably superior humans, and applications under study now to make this dream reality are being funded by thousands of government and private research facilities around the world. As the reader will learn, this includes among other things rewriting human DNA and combining men with beasts, a fact that some university studies and transhumanists believe will not only alter our bodies and souls but could ultimately open a door to contact with unseen intelligence. As a result, new modes of perception between things visible and invisible are expected to challenge the Church in ways that are historically and theologically unprecedented. Without comprehending what is quickly approaching in related disciplines of research and development, vast numbers of believers could be paralyzed by the most fantastic and most far reaching supernatural implications. The destiny of each individual as well as the future of their family will depend on their knowledge of the new paradigm and their preparedness to face it head on.

Thomas and Nita Horn are internationally recognized lecturers, radio hosts, and best selling authors whose works have been referred to by writers of the L. A. Times Syndicate, MSNBC, Christianity Today, US Congressmen, Senators, top-ten talk shows, The Washington Times, CBN and hundreds of other press agencies around the globe.

This book is really good and held my interest from beginning to the end. If we look around us now in year 2017, we can see some of the topics discussed in this book is coming to light. I will continue to study & research this transhuman topic along with understanding, we are truly living as in the days of Noah. I read the book of Enoch as well to learn more about the Watchers and their role in these last days. Very interesting indeed!

I sincerely hope we are caught away before this begins to take place. Mr. Horn quite a writer. I feel he uses more words than necessary and require a dictionary. I found all the information fascinating and look forward to my next encounter thankful to Mrs. Horn for her part in this adventure.

This book helped me with Scripture interpretation and current news. The "Sons of God" in Genesis 6:2 have been a mystery to me. The Horns imply that they are two hundreds angels (based upon the Book on Enoch) that married the "daughters of men". This merger created a "kind" that was outside the boundaries of God's design causing the "wickedness" to be great and every imagination of the thoughts of man's heart only evil (Gen. 6:5). The offspring of this merger is the problem with God being "grieved at his heart" and His choice to destroy man. Next, the Horns imply that the words of Jesus concerning His return to be like the "days of Noah" with "eating, drinking and marriage" (Matt. 24:37:38) are about current efforts by the governments of men to improve mankind by marrying technology, animals (mark of the beast), performance enhancing drugs and even spiritual beings. The general idea is to tweak the DNA of man toward an intelligent evolution in order to gain an advantage on the competing national stage.

A soldier that does not need sleep and void of post-traumatic stress disorder (PTSD) is one of many examples. Again, this will be outside the boundaries of God's design and therefore the end is near as Jesus returns to setup His kingdom. The Horns cannot confirm their interpretations, but it is worth considering and not to be unwise or asleep as events unfold. The Horns only see the tip of the iceberg due to the secret nature of this hidden research and development toward transhumanism. Yet don't be anxious about anything (Phil. 4:6).

Tom Horn has been following the Transhumanism movement (and everything else connected with it, including robotics, artificial intelligence, etc) for 30+ years and is a worthy teacher to listen to. Great book, a few years dated but you will get a good idea of WHAT IS HAPPENING NOW . Freaky but true. But learn and you wont be shocked when you see the changes in society.

EVERY CHRISTIAN SHOULD READ THIS BOOK! And I say, every Christian, because people that are not believers won't really pay too much attention to what is going on in science and technology in our times and much less relate it to what the Bible teaches about the end times. We are really struggling with evil spirits, with evil intentions for humanity, actually seeking the total destruction of humanity as a whole. We need to be prepared for what's coming. We need to know what's coming so that we can be better prepared to deal with it. In Christ, we are more than conquerors! It is in Christ, and Christ alone, that we can know that evil will not prevail, that there is no greater power and authority that our Lord's, and that He, Christ will reign supreme. To Him all the glory!

This is probably the best book for Christians that are unaware where their tax dollars are being spent on. I highly recommend this book for anyone who is unaware of the transhumanism movement that is sweeping the world. Tom was very clear on what battles are ahead for us on the way to the future of America. This book has changed the way I look at science and those that influence our future. All those science fiction movies I used to watch now I see them in a different light.

Jesus conquered the seed of satan on a hill called Golgotha through His death and Resurrection! The author has enlightened us about the end time battle that is coming upon the world. We must enforce the Victory of Christ until the end! He has given His authority to the Church that He is building....yesterday, today and forevermore! I believe we are headed in the direction the book discloses. Intercessors get ready!

Any person seeking Yahweh for a closer relationship does NOT need to know about the information listed in this book. Other religions will just cause confusion. My Father is just what the WORD says in the KJV. Anything else is excepting another spirit !. America already needs major deliverance. Seek Yahweh with your Whole Heart and the Spirit will show you Great and Mighty Things. I did not send this book to Good Will , I would not to let anyone else try and read it. I am responsible what I teach others because Judgement Day is coming.
