Skydoll: Spaceship Collection

Synopsis

A SCI-FI FANTASY OPERA! Sky Doll Spaceship collects six stories from the eventful life of the SkyDoll, Noa, and the six stories that comprise the Sky Doll Lacrima Christi collection, which are about the lives of the Papesses Ludovica and Agape. With art from a variety of exceptionally talented artists, Sky Doll Spaceship is a gorgeous vision of the world created by Barbucci and Canepa. In a parallel universe, the existence of a sweet, life-like android called Noa, a Sky Doll, is about to be turned upside down. When she is rescued by "missionaries" from her role as servant to a tyrannical master, it becomes clear that she may be more than just a robotic toy after all. For a start, she is capable of dreaming and has developed a personality of her own. In a dystopian world where personal and sexual freedoms have been perverted, Noa is a mysterious anomaly whose true power is yet to be revealed, even to her...

Alessandro Barbucci and Barbara Canepa are the Italian team behind the series W.I.T.C.H and Monsters Allergy. After working for Disney, the pair decided they wanted to create a world that

explored the socio-political impact of religion, with more adult content, and so the Sky Doll series was born.

Half the short stories in here are really bad. A quarter are OK, and a quarter are pretty good. What puzzles me is the original Skydoll creators are the ones writing all the stories in here, so I don't understand why the writing is so uneven. Art's usually pretty good, with a different artist for every story. I would skip this though, unless you're an absolute diehard Skydoll fan.

Love the story, but this just gives you a glimpse so I got to get the collection to embrace it all
