Customer Reviews

This book REALLY helped me study for/outline for my Civ Pro final. My professor glossed over some really important doctrinal points, and this book walks you step-by-step through just about everything Civil Procedure. HIGHLY RECOMMEND this for any first year law student.

I bought the whole set of E&Es for my first year classes but found them of marginal value. I did not find this as helpful as listening to the lectures and performing the reading. I guess if one could attend all lectures, perform all assigned reading, handle extra-curriculars and do the additional reading it might be worth it. But I found very few people have the time to do all that. I did not find this a good substitute for the doing the assigned readings and appearing in lectures, but it can be helpful if you come across a troubling case. I found the value marginal at best.

I just wish I would have started using it sooner. I bought it after midterms. Our professor, at least, tested strictly on the application of the procedure, not so much knowing what the procedure is. This guide helps do just that.

I had to teach myself Civil Procedure this semester, and the E&E was PERFECT for that. So easy to understand and built-in assessments to keep you on track.

Being an accountant, I got quite a lot out of this book. Example Explanation format really helped me understand concepts. Great book.

Clear writing on a very difficult subject. The examples and explanations part of each chapter gives a great review of the topics. This book was on my Civil Procedure syllabus as recommended, and I see why. I am using it to review for the course before the final exam. Couldn't do without it for this course.

This is an excellent study guide. If you have trouble understanding anything in Civ Pro, Glannon can help you through it. The whole series of Examples and Explanations is fantastic, and I highly recommend them.

This book breaks down everything you have learned in your Civil Procedure class down into easy to understand format. It may not do you much good if you try to rely on this book too heavily, but as a

supplement to things you have already learned it is great. It gives great example problems at the end of each chapter to reinforce the material and make sure that you have grasped it before moving on. I would highly recommend this book to anyone looking to put the finishing touches on their Civil Procedure knowledge.
