Customer Reviews

I'm so happy with this dictionary/thesaurus. I like the easy reading of the size of the font as well as their making the thesaurus in blue. It's easy to find words. I use it to sharpen my vocabulary and learn new words. The price was really reasonable!

I usually use dictionary or thesaurus dot com when I need to look up a word, so this is actually the first dictionary I've ever purchased as an adult! I joked with another reviewer about the super thin pages, but they are right, it feels delicate. The price more than makes up for that though, and I was very impressed that such a thick hardcover weighs the same as a small paperback. I've collected books, both new and practical like this one and collectible antiques, for many years, and am very happy with this dictionary/thesaurus.

what I really like outside the usefulness of the information in it is the paper used to write it on. I was impressed about how it was a big book but didn't weigh what I expected. The paper is light weight & that is of concern as I'm old & have lots of pain in hands & wrists. Thanks for the wonderful dictionary=:)

After almost 50 years I decided it was time to replace both my dictionary and thesaurus. Both of them were paperbacks. Can you imagine what two 50-year old paperbacks used regularly would look like? ----faded yellow, ragged and loose pages with lots of tape. This new Webster's All-In-One was a very nice replacement for both of them and it's a hardback!

I bought this dictionary because I was helping someone with their homework and they asked for this specific dictionary after looking at all the available dictionaries on .com. The not so great: the paper is rather like common newspaper than the smooth expensive paper used in magazines. But this is probably to save cost. No problem. Who care what kind of paper is used. It is the substance inside that is important.

For a very long time, we have only had a small paper back dictionary. Recently I tried to look something up. To my surprise, the word was not in there. So I went to to find a new one. I am very pleased with this one.

Love this dictionary! Has the thesaurus words right under the definition. Easy to use great for students or otherwise

I had to go back to my old dictionary to find the word "bullhorn," This volume is obviously leaving out words -- adding new ones probably. But I am disappointed in the weight of the pages as well. Nice as it is to have synonyms in the same book -- you give up a lot in this one.
