## Customer Reviews

I bought this piece of sheet music after my teacher recommended it as a 'good piano competition piece.' I had already worked on most of Rachmaninoff's 2nd piano concerto (also very difficult) and the third movement of Mozart's 17th concerto. I would definitely not recommend getting this piece if you don't have a MAJOR desire to learn it as it is very difficult. However, the piece is extremely beautiful, and technically showy (which is why it is a 'good competition piece') - probably my favorite piece of sheet music at the moment. I have been playing piano for 12 years and would consider myself fairly advanced - but I still anticipate it taking at least 6-8 months to learn this piece, and that's practicing it up to and about 1 hour per day. Rachmaninoff wrote a masterpiece and it is considered today to be one of the most beautiful and difficult piano concertos, up there with Tchaikovsky's 1st. This edition has a limited amount of fingerings, but it is easily readable and not over-edited like some editions. I wholeheartedly recommend it but will warn you again not to attempt to learn it unless you have a strong desire to do so.

Item as described.

What I don't like is the music is so small you can't even read it. And for you to spend \$24 you should be able to see the music very dissatisfied because I can't even read the music is so small

pro- i like the cover. printed fairly well. paper is of not the filmsy dover kind.con- it's the same edition as the ones you'll find online at imslp.org, not too special but better than schirmers.

for those of u that saw "shrine" i guess u already discovered the "magical" feeling after hearing this piece. w/ this arrangement the piece could be played by two ppl instead of w/ the orch... makes things simpler but sounds just as nice.

This is a great jazz etude... Rachmaninoff wrote some really cool harmonies, especially for 1910 or whatever... with polychords, minor major 7ths, dominant b13, block chords... excellent! It's a difficult read, and I still can't play it full speed, but read through this piece and you will feel confident that you can play anything.
