Have barely looked at the book yet - I use this series "Discover 4 Yourself for Kids" for my fall / spring classes for teaching home-schooled children the Bible. It is a WONDERFUL series for the

class room as well for home Bible study, for which it is formatted.. Not only does my class learn a lot but I too as well. Would highly recommend this for anyone with children 8-11..

I rarely do reviews, but this is such a fantastic series of books that I wanted everyone to know. I started buying these when my son was 9. He could certainly understand them at that point, but other things easily grabbed his attention. Now that he is 11, he has gone through three of the books. I do not have to make him do it. He just does AND when he is nearing the end of one book he is sure to remind me to order the next one soon.

LOVE these Bible study series. We have purchased several of them for my child's independent study time. The authors do a good job of making the study fun and teaching the kids to dig into God's word. Sometimes the words used are a bit mature beyond the average student's knowledge but this can be a great time to ask a parent or teacher for help. I'm VERY happy with these studies and have enjoyed watching my child learn to study God's word. I highly recommend them!

This book has helped me with ideas for Sabbath lessons and how to keep the children engaged.

We have loved this book. I am having fun studying the Bible probably for the first time in my life. I am excited for my son to find the Bible fun and learn it as well!

This is a great Bible Study that leads kids through the inductive study method of Bible Study. The great thing is, what they learn can be applied to any book that they study. I highly recommend this series.

loved it

We love precepts studies. Kay Arthur does a great job helping kids investigate the Word of God and learning more about their loving Father. The activities are fun and you feel like a real detective.
