## Customer Reviews

Yeah, the girls are pretty. But the Victoria's Secret catalog is free. Bought these books as a reference to improve my Photog skills. Great photography but not the learning tool that I wanted. Of course it is not intended to be a Text book. Still great pictures, Well done. I gave the 3s books to my 14 year nephew. He loves them too. Hi Mother Dearest does not!

Terrific collection of models photographed in beautiful settings in those far away places that most of us only dream of going to. An excellent job by the great photographers of SI as we have come to

expect.

I guess its good I never saw it, bought it for someone else.

What can I say? Sports Illustrated photography at it's finest.

As a swimwear photographer, I jokingly call this book "The Bible". The photos are simply amazing! The interviews with models about working with the photogs and vice-versa are a nice bonus. And the models shooting their own self-portraits in mirrors is a brilliant idea that EVERY model photographer should try on your next shoot. If you photograph or want to photograph swimwear, this book is an absolute necessity for inspiration. I refer to it over and over and over for inspiration and have even carried it to the beach with me to show examples to models for posing, lighting, mood, etc!

A good coffee table book if you're a bachelor. Don't be surprised if you find it missing when you have guests over.

I will have to be sure to see if there are other books published by SI like this one. I do have the one on body painting and it is also an excellent book. The images are wonderful, SI each year has so many beautiful models and wonderful photographers that you will really enjoy looking through this book and owning it. I wish they would have compiled a book like this for every year. Marisa Miller is outstanding among these beautiful women kudos for her. Enjoy the book people I know I am.

All of the pictures were done with sexiness and class. Nothing raunchy or degrading. It was completely respectful. If you're looking for nudity, a playboy magazine will suit you better.
