The Chosen: Rise Of Cithria Book 1

Synopsis

Three kingdoms at war. Three stories of hope, sorrow, and sacrifice. Three groups of heroes, whose personal quests lead them to discover that a fourth kingdom, long forgotten, lies dormant. But no more. Unless these heroes, bitter enemies of each other, can put aside their enmity, then Cithria will rise again, and everyone else will fall into the abyss.

Book Information

Audible Audio Edition

Listening Length: 11 hours and 53 minutes

Program Type: Audiobook

Best Sellers Rank: #175 in Books > Audible Audiobooks > Arts & Entertainment > Games

#1740 in Books > Audible Audiobooks > Fantasy > Epic #2025 in Books > Science Fiction & Fantasy > Gaming

Customer Reviews

The authors did a fantastic job of developing each character and each setting. The attention to detail was phenomenal, drawing the reader along. I did not find it difficult to follow along due to the constant switching back and forth between characters. Instead, I think that element added an almost "movie like" quality to the narrative as it played out in my head. That being said, I can understand how readers may find this work confusing. For example, when Finneas was reflecting on the fadeblades in Aiden's shack and his conversation with the one left alive; there was no segway into the very next scene that was Finneas in his current situation. Beyond that, the writing style was flawless, word choice and character dialogue was perfect for the genre. Even in a deep, dark cavern the action never stops and propels the reader forward. I truly enjoyed this book but I would be remiss if I did not write about how much this book reminds me of the various video games I've played throughout the years. As I read this book, I felt as though my carefully placed action bars had taken on a personality of their own. I was reminded of the roles and classes I am so fond of: mages, warlocks, priests and rogues. Ultimately, if you enjoy great fantasy fiction reminiscent of Tolkien and

popular video games, you will love this book...Leeeeeroy!

The book is interesting but you get three starts to stories that must connect sometime in the next book I would hope. I wouldn't recommend this book for a person looking for the end it just stops and you will have to get the other books to find out what happens as of May 20, 2013 they have not been written.

I loved this book. Three good writers joined together to spin three yarns about three different groups of adventurers from three different regions of a very interesting and well thought out world. The authors have set out on a very ambitious and entertaining quest of their own with this first volume. This book is a wonderful beginning to a series and I can't wait to read the The Descent, the second volume of RISE OF CITHRIA.

I loved This Book and can't wait to read the rest of the series. There are so many different characters it reminds me of "A Song of Fire and Ice" in that regards but in more of a Lord of the Rings fantasy world. Can't wait to see how the three different stories come together. I enjoy books that lead my imagination into a whole other world and this book does that for sure. A must read for anyone who enjoys any type of fantasy books.

The format of this book is different than any that I have read, but the character development is great and a reader can almost believe in and become an advocate of the heroes. It is an introduction of three groups of characters who will already be familiar to readers when the sequel is published. It is a good start for a series of stories and I can't wait to see what happens next.

Not my kind of book but my brother would love. I just couldn't get through, I skipped several chapters in an attempt of getting thorough the whole thing, just could not.

Interesting story so far. A little rough keeping everyone straight, but it gets better with time...Leaves me wanting a better understanding of the world (map) and the races. I keep envisioning a world honeycombed with tunnels...seems fragile/unstable but maybe I don't have a complete understanding yet.

A LOT of people in several different groups to try to remember. A lot of action. However, we aren't

told what all the fighting is about. We aren't told very much history to enable us to figure out what all the fighting is about. Who is fighting whom? Confusing to a large extent,
