Customer Reviews

This album feels like a master class in subtlety and atmosphere. Trower is not about flash, he's about note selection, and there's not a weak or misguided moment anywhere here. Put on some headphones and close your eyes, listen to how patient and understated he is. And the band is up to the task. Hendrix may be my favorite guitarist but if you are still riding that "he's a Hendrix clone" horse you really aren't hearing Trower for who he is. What they shared was originality and a stunning musicality.

Very hard to find complete sheet music and tab. Love it.

This being Robin's most well known cd, it was wonderful to be able to learn his songs note for note from his 2nd cd and a songbook that has the most songs that Robin still plays live! One complaint I have though is tablature is hard to read because it showed up pretty small on my kindle and I could

not make it any bigger. Overall it is sweet to be able to learn songs I really love by Robin such as "Day Of The Eagle", "Bridge Of Sighs" and Too Rolling Stoned"

As Advertised

I checked for a copy of this a while ago and none was available. I was excited to see this tab book on . I always dug the song bridge of sighs(and the album for that matter) but there are some things in the tab book that I found that I hadn't quite got right. It's fun to study the differences in what I thought I was getting right(but didn't sound right) and what's in the book. Now on to "Little Bit of Sympathy". 5 stars because this is what I wanted and expected from the tab book.

Perfect transcription... day of the eagle/bridge of sighs is same tab you see in the magazines. I also look for videos as a guide once in a while, but this is spot on. Keep in mind, pedals are important... MUST have a Vibe pedal to nail the sound. Book is a great buy.

Trower's Bridge of Sighs album is a virtual clinic in British Blues playing. This books does a very good job of covering the songs. With such a lack of good Trower tab books out there this one is really all you have to get these days. I's love to see a best of Trower tab book come out but that so far hasn't happened.

Tabs are incorrect. Kindle version is very difficult to read. Can find most of this info online.
