Ari Seth Cohen is a freelance writer, photographer, and blogger based in New York City. Inspired by his grandmother's style and his lifelong interest in the fashion and stories of vibrant seniors, he started the Advanced Style blog in 2008. After publishing his first book of photographs, *Advanced Style* (powerHouse Books, 2012), Cohen is finishing up a documentary based on the lives of his subjects. Ilan Schraer is a fine artist and illustrator based in Portland, Oregon. With a fondness for the absurd, his art explores his fascination with family history, portraiture, and the passage of time. Schraer has shown work in San Francisco and Portland, and his illustrations have been published in *The Portland Mercury*, *Dewclaw*, and various online periodicals.

I'm '71. I find that with age I've become invisible. I've always loved clothes and accessories, frequent great thrift shops, adore colors. Ari Seth Cohen has given me a peer group and mentors to admire. I was about to send a cowboy shirt I've never worn back to the thrift shop when I found his site (and Sziporah Salamon's sp? at the same time.) Instead I wore it out to dinner and was complimented and felt terrific. They can't ease us out, if we stand out and stand up for color and glamor and creativity! Thanks thanks for this inspiring book.

So many of the reviews written about *Advanced Style* is about how inspiring it is for women over the age of 50, but I disagree. The popular blog, and now a newly published hard cover book, is inspiring for people of ALL AGES. I'm in my 40's and you can not underestimate the impact seeing all sorts of women "of a certain age" being CELEBRATED. In a society that sweeps a woman past 30 to the sidelines as being sartorially irrelevant, it is refreshing AND revolutionary to look at these images of these glorious women in their 60's, 70's, 80's and beyond, as captured by Cohen's lens. No need for tips on how to dress, just witness the variety and diversity of the ladies shown, add your own personality and stir. What they share in common is a colorful joie de vivre, and that appeals to women like me in their 40's. A number of friends my age have said that *Advanced Style* has inspired them to not give up, but to dress up. The book also seems to appeal to men and women under 30. My favorite response in talking with a 20 year old about the *Advanced Style* book was her enthusiastic comment of "I LOVE the *Advanced Style* ladies and I can't not wait to get to be their age!" The book itself is gorgeous: beautifully bound with rich color saturated pages, glossy as a

magazine's. In fact, I think of Advanced Style as being more akin to a fashion magazine than a coffee table book. And what's in fashion this year? A marvelous celebration of style for all ages.

I absolutely adore this book! I found it so inspiring and hopeful that I made a list of items to add to my own advanced style treasure trove for now and the future! Pure fun!!

As an adult colorist, I greatly enjoyed this coloring book which was different from any I've ever had before. It features seniors, most of whom seem to be a bit on the eccentric side. They were quite individualistic and each one quite different. The pictures are large and quite easy for anyone to color. I mostly used crayons, highlighting with markers that were non-bleed through. The coloring book costs about double what I usually pay for one, but I am glad I purchased it since it was one I had not had before and since it proved to be such a delight to color. I even wrote brief little scenarios about each individual, giving him or her a name and writing my impression of the individual, which added to my fun.

I love, love, love the pictures of mature people who I can color in bright and beautiful colors. I think the book was only \$3.99 when I bought it so I can't complain too much, but the paper is total rubbish. It is like the paper in a cheap kids coloring book. You can cut the book apart, scan the pages and print on better paper, but I want to color in the book and not have to reprint. Life is too short. My suggestion would be selling it with downloadable PDF files so good copies can be saved and printed. I would happily pay a couple of dollars more to have good quality prints I could save on my computer.

This book is full of wonderful photos of interesting people as was the first book. I do really like the little essays by some of the subjects. It's also nice to have some men included this time. One can't help but be inspired by the creativity and optimism. Their style is truly a gift to all who see them.

I had to have this book after I saw the video. These women are inspirational! You may not like all of their individual tastes but they have to be celebrated for their spirit if nothing else. As someone who isn't getting any younger, I hope to be able to resist the urge to let myself become invisible. Hooray for Advanced Style! I hope it becomes a film.

In the interest of full disclosure, I'm a 31 year old woman from the Southern U.S. And I absolutely

love and am inspired by this beautiful book. Advanced Style is a coffee-table style book of lush full-color photographs. The subjects are the lovely, interesting, stylish ladies featured on Ari Seth Cohen's blog. There is not a lot of text to the book, although some ladies' wise words are featured. However, there is not a single page that I haven't pored over (usually along with my 24 year old sister and 6 year old niece). Even a photograph of a lady's hands is endlessly inspiring, simply because of the way Cohen presents his work. My personal style has also been deeply influenced. On every page, I see a tiny detail that makes me go, "Aha! So that's how I should wear that scarf/piece of jewelry/article of clothing." All in all, a perfect tribute to the wisdom and style of these ladies.
