Customer Reviews

There's plenty of good information here. This is well written but just touches on the (mostly) high

end possibilities. I was hoping for more information and more affordable food, wine, lodging and shopping recommendations.

Very helpful tips

Italy is a place that I have always wanted to go but international travel is a daunting task. While searching for guides on Italy I stumbled across this one and hit the jackpot. This guide has a wealth of information from airport information, hotel, transportation options, and restaurant and wine guides. It even told me how to read addresses and what holidays that things may be closed on. I have looked at a lot of travel guides but this one was unique. It gave details on some out of the way places and wasn't just another guide to the touristy areas. If you want to experience Italy like a real Italian pick up this guide. The information is invaluable for an unforgettable trip to Italy.
