Bought the map for my trip to Florence thinking a laminated pop out map would be helpful. I didn't

think it was detailed enough to get around on the streets. I found the paper tourist maps given out by the hotel at check in to be easier to use around town.

I have traveled around the world and love these little maps. They easily fit in a pocket and open for use. I usually mark my hotel on the map and can easily figure where I am. This is a great backup and cheap insurance - especially when your phone goes dead. the maps also have information on sites, train station, and spots of interest. There are 2 maps of Florence, one of a larger regional map around Florence, and one of Pisa.

Great little map....Perfect compact size! Perfect for the main city center of Florence. Would be nice if they removed Pisa and gave a general view of Florence's surrounding cities on the map. Been to Florence 6 times and found that the phone and digital maps are harder to look at. It's nice to have a paper map in your hand where you can scan the entire page vs having to scroll and zoom on the phone. Great price. I had found similar maps in travel stores that were triple the price.

Did not use much

On our recent trip to Florence I never left the hotel without the Florence PopOut map in my pocket. It perfectly covered central Florence, was easy to read, and has all the important points of interest.

This was fantastic. It was small enough to carry around but you could see what you needed to on the map. Loved it!

Perfect fit for your pocket or purse.

Again, as before with the Venice and the Rome pocket maps, was great to find my way around and back to my hotel after exploring Florence!
