## Customer Reviews

As someone of 1/2 Slavic background, I wanted to try to learn the language of my ancestors. But all their confounding ablative cases and feminine verbs (really? how can a verb be feminine?) and illogical numbers and whatnot drive me crazy. Now I'm thinking my grandfather emigrated to the US just to be able to speak an easier language, and it had nothing to do with economic opportunity. At least this set of disks makes things a bit more clear. I do like how the grammar is explained as you learn it. The lessons are not as easy to retain as the Pimsleur series, but I am repeating each one

over and over to really be able to remember the vocabulary.
