My brother and I have written reviews for the best ski book ever!Hi- my name is Calvin, and I'm 11 years old in 6th Grade. I am reviewing Ski Tips for Kids written by Mike Clelland. When I got this book, my skiing improved way better than ever. I think the book is great because it teaches many things. For example, it teaches kids and teachers. It helps teachers teach and it teaches kids how to ski. It helps kids ski, put on gear, and get on the ski lift. It has great pictures that show all these things. I recommend this book to kids who want to learn how to ski with moves like "pizza" and

"french fries", and I recommend it to teachers and parents. It also teaches parents how to take care of their child while skiing. These are some of the reasons why this book is great!Hi- My name is Alvin, and I am 12 years old in 7th Grade. The book Ski Tips for Kids teaches you how to ski, get on the lifts, do hand signals, and get the right equiptment. This is important because it teaches grown-ups the ways to teach kids, and it explains the right attitude for the grown-ups to have. This book helps skiiers, grown ups, teachers, and most importantly KIDS. The equiptment explained includes skis, helmets, poles, goggles, and identifying safe practice slopes. Some of the tips taught are the "pizza", "french fries" and the "pizza-french fry combo". The reasons you will want this book is it has detailed and fun illustrations, and it helps kids learn how to ski. It also helps you choose equiptment to ski. That's why you will want to buy this book! It really helped me, my brother Calvin, and our youngest brother Marvin (7 years old). Have fun reading it and skiing!!
