Guys, Light, And Nature (Portfolio1000)

Synopsis

Known for the brilliant way he captures color, Manuel Moncayo enjoys capturing life's beauty as a way of satisfying his keen desire to better understand the world. His first book, GUYS, LIGHT, AND NATURE, a limited edition (1000 copies) photobook from new publishing label Portfolio 1000, celebrates light as it showcases two of his favorite subjects: men and nature.

Customer Reviews

There are some very good photos, but it looks like a project this guy did for a photography class. For the amount of money I paid, I expected that there would be more than 12 photographs of nude guys, amidst like 20 city shots of buildings and other various landscapes, with no nude guys in them. Obviously he knows how to take good photos but for 30 bucks, I expect at least 40-50 really good shots. The binding of this book is very strange, and the intro that the author wrote is pretty immature-sounding. He says, "Capturing beauty is my way to satisfy an urge to learn about the world. Beauty transcends humanity's existence, and it is past, present, and future all together." He also goes on to say, "I work with gay men because I feel a need to rediscover and re-describe the way in which society portrays us." I don't think this work rediscover or re-describes the way society portrays gay men (then again, how *do* they portray us, anyway? It's impossible to define. I think this photographer has potential. I do hope I see more of his work. But this book, I do not recommend. It's too short and (pardon the cliché) completely lacks focus.

Do not waste your time or dollars on this book

Very disappointed! Not what I expected! :-)

Beautiful book with gorgeous pictures of Guys, Lights and Nature.
