Pearseus Bundle: The Complete Pearseus Sci-fi/Fantasy Series

Synopsis

Could You Save The Woman Who Killed Your Son? Sci-fi fantasy filled with intrigue, murder, and betrayal. Fans of Game of Thrones and Dune have an exciting new fantasy series to devour. Terrified of an ominous prophecy and spurred on by a shadowy advisor, a cruel ruler sends the young son of her favorite General to be executed. Soon, however, she must beg the grieving father to save the country from an invading army. Now, the General faces a stark choice between revenge and honoring his vows, unaware that his son's fate and that of the entire planet are inextricably linked. This bundle includes all books from the best-selling sci-fi fantasy series plus bonus material. "A creative and unforgettable series that will one day become a gem among sci-fi fantasy books." ~ Janice Spina

Customer Reviews

What a fantastic series this is and can hardly wait for book four. In the first book, Schism, we start off on the spaceship, Pearseus and after a catastrophic accident the survivors find themselves on a

nearby planet that they name for their lost ship. What I loved about these three books was the author's ability to weave in ancient Greek mythos, cultural and historic influences; it felt like ancient Greece, complete with warring city-states but set on a far-away planet. The characters felt vivid and memorable, including the creepy and scary Fallen, the honourable general, Parad and the enigmatic First are only some of the characters brought to life within the pages of this book. This book is done on an epic scale too - in the background, with humans largely unaware, is the war between the Whispers and the Orbs. The Whispers feature strongly as an influencing force in many of the tragic events that the people of Pearseus find themselves a part of - they are masters of manipulation and finding the weaknesses in humans. Equally, the Orbs are powerful but dwindling and the war with the Whispers is not going well for them and their supporters, the First. So if you really like healthy doses of science, fantasy, magic, tragedy, memorable characters both the good and the bad, an exciting writing style that never bores and has very few editing errors, a complex and well drawn universe, then these books are definitely for you.

Book One: Schism In the not so distant future, a space ship crash lands on a far away planet. It seems like an accident, or was it? However they got here, the survivors from Pearseus are left to set up a new civilization, if they can work together. And for a while, they do. But the possession that seems to have brought them here is never so far away. And the whisper in the dark just adds to an already corrupt human nature... right? So when everything crashes, the civilization splits ... and we have the schism that creates Pearseus. Schism is a shorter book that opens up the world and sets the stage for the drama that is about to unfold on the new planet Pearseus.

Book Two: Rise of the Prince Three hundred years have passed since that first split that created distinct empires on the new planet Pearseus, not to mention the native First. But the whispers in the dark never did go away. There's now three main Newcomer factions, plus the First. Not to mention the shadow war between the Orbs and the Whispers. We meet characters from each of these places as they struggle to keep the peace, stay alive, and win wars. Leadership changes, friendships are born, and battles won. Rise of the Prince isn't a story about a single character or hero, but the story of a world struggling to find peace. The dynamics and alliances are constantly changing, and through it all, we have to decide for ourselves who's in the right and who's not.

Book Three: Mad Water Cyrus now rules in the Capitol, but the wars aren't over. Less and less in the shadows, the history of the battle between the Orbs and the Whispers comes into dramatic light. Not to mention the Iota, another native species from time almost unremembered. Some of our heroes are dead, and the next generation is left to take their place. But the battle isn't so straightforward, and our new leaders must

find their own balance in the world. Alliances and declarations of war aren't so simple anymore, because first each person must determine for themselves exactly what it is they fight for.

Don't be fooled by the bargain price for the three-book bundle on Kindle, the Pearseus series is worth much more. Thankfully not quite as complicated as George R. R. Martin's "A Song of Ice and Fire," there are still enough characters and factions--that continue to develop as the series progresses, to keep you occupied. It kept me turning the virtual pages. I can only hope the fourth book in the series comes out soon because now I really want to know what happens! If you like fantasy or sci fi, you should like this.
