Customer Reviews

Three star because as beginner need more explanations, but good pictures. I bought this book because the recommendations. Was good for me but not what I was looking for.

Great book, fantastic pictures. Would recommend this book for beginners and advanced flower

arrangers. Can also be used as a coffee table book.

I was just a little disappointed that it didn't have much of floral ideas using the tropical flowers as I thought it would, although it did show some techniques for cutting.

This is THE book for modern, inspired design with tropical flowers and greens for parties and weddings. The detail and design inspirations will take you far into your own execution whether it be for home, party, wedding or retail. I love the different chapters/scenarios for individual lifestyles and purpose. Let loose with this book for fun and creativity to create tropical flower design that will WOW and excite.

I learned so much more about flower arranging than I ever could on my own after reading this book. Felipe Sastré's designs are some of the most beautiful creations I have ever seen. He rivals any celebrity florist out there right now. I was inspired to continue my design knowledge and luckily learned that he is currently sharing his wealth of experience in his own flower school. Thanks to this book and felipesastreschool.com I am getting rave reviews for my own designs and am thinking about going in business to do this thing I love. Thank you Mr. Felipe Sastré for being so generous with your knowledge and designs. I recommend this book highly, and if you happen to be in the New York area I totally recommend his classes at felipesastreschool.com as well. You will not be disappointed!

First and foremost Felipe Sastre is really a master at what he does. I congratulate you Felipe your

designs are AMAZING! We have the pleasure of being from tropical areas and know what tropical flowers are! I give all my credits to you! I loved all the designs that you made and the camera really captures your work. The bananas and the greens remind me of home so close yet distant.
