Customer Reviews

Published since 1935, the US/BNA Postage Stamp Catalog contains current market prices for United States, U.S. Possessions and Trust Territories, Canada and Provinces, and all United Nations. It contains thousands of stamp illustrations to identify virtually every design and listing by Scott's numbering system. This book includes U.S. Commemorative index, and stamp identifier, grading criteria, and much more.

Excellent guide, all stamps are pictured in order.

very helpful in the info that is provided in this fine catalog.

Excellent up-to-date and informative

Great book for all your needs

on time and as advertised

I love it

Good reference book not too many to choose from very difficult to get them .

Product was not packed well enough. The box must have suffered a fall. The corners of the book became dog-eared. The box corner was crushed a bit. Could have been prevented with more internal packing. The book is wonderfully informative, but now doesn't look as smart as it should.
