Ivy And Bean No News Is Good News (Book 8) (Ivy & Bean)

Synopsis

The 8th book in the New York Times bestselling Ivy & Bean series is now available in paperback! Ivy and Bean need some money. Ten dollars, to be exact. Never mind what for. Okay, it's for low-fat Belldeloon cheese in a special just-for-one serving size. Don't ask why. But how are Ivy and Bean going to make ten dollars? Hey, maybe they should write a newspaper about Pancake Court and sell it! Great idea! And easy, too. All they have to do is nose around the neighborhood. Wowâ "it's interesting what comes out when snoops start digging. It's even more interesting when the neighbors read about it in the newspaper.

At lunchtime everyone has low-fat Belldeloon cheese â œin a special just-for-you serving size,â • except for BFFs Ivy and Bean. The appeal is not really in eating the cheese but in playing with its squishable, Silly Puttyâ "like wax case. In this eighth adventure in the tireless series, the slightly mischievous Ivy and Bean unite to raise money to buy their beloved cheese. Inspired by Beanâ™s good-natured dad, they decide to write and sell subscriptions to a newspaper about their neighborhood of Pancake Court. When that turns out to be boring, the pair resorts to snooping in windows and stretching the truth. Enthusiastic illustrations heighten the comedic results. Grades

"One of the funniest young chapter book series around." The Horn Book --This text refers to the Hardcover edition.

When you can get the grownups laughing out loud you know you've found a great children's book writer. This author has me rolling at times. The books are so engaging. We thought the fun would wear off after the first book or two but they are all fantastic. My child is about to turn 7. We've been reading Ivy and Bean for about a year. Can't get enough.

Ivy & Bean are always a hit.

Every page of this book (and each in the series) is filled with quality. The characters are alive, the story is well told and the illustrations are excellent. This is definitely a book that will capture a young person's imagination and get them reading. As a parent, what I like most of all about the Ivy and Bean series is the youthful energy they contain- they read as authentic to children, not like adults trying to write what they think children want to read. The combination of care, quality and honest characters holds the imagination- of young people reading for themselves, or as an adult reading aloud to kids.

My 7 year old loves these chapter books. The 10 book series tell the various adventures of two friends. They are easy for her to read by herself in 1-2 days. Chapters include some illustrations.

My daughter was given then first 6 books as a birthday gift, and she loved them! Ever since, she has been on the lookout for each new book that comes out. I try to convince her to wait for the paperback, but she can't. Honestly, I am so glad she is into reading, and that these books are written well and deal with age appropriate issues. I would recommend these books to everyone (even my son reads them!)

My sister, a 1st/2nd grade teacher, recommended this book series after I was telling her the challenges of finding books for my 7 year old who is not quite ready for longer chapter books but too advanced for picture books and early readers. She was right, my daughter loves them and they are clever and fun to read aloud. I also like the female characters who are just the right amount of

mischievous. Perfect.

Love it. If I were you I would like totally buy this book. It is amazing and awesome to be reading. Lol
LILC. Bye

Reviewed by my 7 year old. My daughter has read many of the Ivy & Bean books. She says they are a bit more challenging than the Rainbow Fairy books(rainbow magic Fairy) series. She likes their adventures and the ideas in the books. Hope this helps! She would recommend these books.
