Her clinically proven Brain Wave Audio Technology is used in prestigious hospitals, biofeedback clinics and by physicians and psychologists throughout the world.

I don't feel it's her best, (for me), but it's a very good, relaxing CD. It's a little on the short side, as in her other CD's I'm already asleep before she gets halfway through! This one, I usually hear the whole thing, and then go back to my favorite of hers, 'Guided Relaxation'. I've bought so many of

her tapes, and I know that there is no way that I can go wrong with any of them. Guided just happens to be my favorite. I guess I like the ratings that most people seem to put 5 stars for! I give Guided Relaxation six, and if this one was longer, I'd do the same with this one.

Like very much. Great for meditation and energy healing. Like Reiki, Qi Gong, Tai Chi and Yoga for example.

fair if you are already familiar with meditation.

Omg such a wonderful CD Kelly Howell is wonderful. Her voice is soothing. This CD is great for beginners and master medatitors like myself . great CD to have in collections.

Not a good meditation disk
